10+1 REASON WHY

DECORAL SYSTEM® is the worldwide leader in sublimation

DECORAL® OFFERS TRUE TURNKEY SOLUTIONS

THE ABILITY TO COMPLETELY MANUFACTURE ALL EQUIPMENT, POWDER COATING, AND FILM TRANSFER IN-HOUSE TO PROVIDE THE HIGHEST QUALITY RESULTS FOR OUR VALUED CLIENTS. OUR ULTIMATE GOAL IS NOTHING LESS THAN PERFECTION!

+1

10+1 REASONS WHY

DECORAL SYSTEM® is the worldwide leader in sublimation

GENERAL INFORMATION 1

- Founded in Italy in 1973 and still proudly family owned and operated.
- Decoral® technology was created in 1993. Our first plant sold in 1995.
- Worldwide, our facilities span over 83.000 sq.m., have 600+ employees and more than 600 Decoral® applicators, and make 110.000.000 euros in annual revenue.

ENGINEERING DIVISION 2

- In-house manufacturer of equipments.
- Full on-site training with professional and experienced technicians.
- Wide range of equipments and plants ranging from small machines to large, automated industrial turnkey plants.
- Highly skilled team of engineers for upgrades, trouble shooting, plant modifications and maintenance.

FILM TRANSFER PRINT DIVISION 3

- In-house film printing rotogravure lines.
- Every single roll of film printed is subject to our quality control standards.
- Several square meters of each roll is stored in our R&D facility for 5 years to undergo future inspection.
- Rolls are sealed in a protective plastic bag and packed properly in batches with barcode labels for full traceability.
- Quality control ensures consistency of final colors.

POWDER COATING MANUFACTURING DIVISION 4

- In-house fully equipped powder production lines.
- Decoral® manufactures only PU (polyurethane powder coating). It has exceptional performance and durability to protect dye sublimation inks in exterior weather conditions (UV, corrosion, etc).
- For every 4 boxes (80 kgs), an inspection is made and a q-panel is kept for 5 years to undergo future inspection.
- 20 kgs of powder is sealed in a plastic bag and packed in a corrugated box and labeled with a batch ID for full traceability.

WAREHOUSE AND SHIPPING DIVISION 5

- Every single batch prepared for shipment is photographed.
- Pictures are kept in our files for any possible future references.
- Capability to process large and small batch orders efficiently.

LABORATORY DIVISION 6

- Fully equipped lab with state-of-the-art equipment.
- Through the art of technology, our headquarters in Italy can review any Decoral® applicator in real-time, diagnose a problem, and troubleshoot immediately.

R&D DIVISION 7

- An extremely skilled team of six engineers and researchers are employed at Decoral® to assist our licensed applicators in research and new product development.
- Back-up and trouble shooting on powder coating application up to the final film transfer process.
- Over 600 of our finishes are certified for outdoor use.
- New finishes are discovered and presented monthly.

WARRANTY 5 YEARS* OR 10 YEARS* 8

- Warranty ranges from 5 years* for Class 1 Silver brand products and up to 10 years* for Class 2 Gold brand products. (*subject to conditions)

AREA MANAGERS & ACCESS TO MODERN TECHNOLOGY 9

- Decoral® Area Managers regularly visit all Decoral® applicators worldwide. Our website, www.decoral-system.com, is regularly updated and offers secure access to our applicators.

DECORAL® 10

Decoral® is in our technology, products and machines, Decoral® is in our blood...Decoral® is our passion!!!

DECORAL® OFFERS TRUE TURNKEY SOLUTIONS +1

- The ability to completely manufacture all equipments, powder coating, and film transfer IN-HOUSE to provide the highest quality results for our valued clients.
- Our ultimate goal is nothing less than PERFECTION.
